PRIVATE PAY TUITION

For students without a district referral

Tuition covers instruction and the regular operating expenses that make our unique educational program possible, including staff salaries, utilities, and other essential costs.

Wellsprings does not charge additional fees. Breakfast and lunch are provided at no cost, and all necessary school supplies—including art and science materials, notebooks, pencils, and calculators—are included. Field trips are also covered, with no additional charges for transportation, admission, or other related expenses.

Tuition for the 2026–2027 academic year is $10,000. Families who pay in full receive a 2% discount, bringing tuition to $9,800. Alternatively, families may choose quarterly or monthly payment plans.

Tuition payments are due within seven days of the start of each term. Once classes have begun, tuition for the current term is nonrefundable.

We strive to make a Wellsprings education accessible to every student who wants to attend.
